

True or False: Team members should carefully review the program's self-study and addendum (if one has been developed) prior to a multiple sites site visit.

**Correct answer: True** True for all visits but the complexity of a multiple sites visit means there needs to be even more coordination and communication among team members and advance preparation is necessary for this to occur.

Visits to programs operating at multiple sites require site team chairs to:

1. Coordinate people and process
2. Potentially be at a different location than some of the other team members
3. Depend on local team members for many aspects of the local site review
4. A and B only
5. All of the above

**Correct Answer: 5**

True or False: CACREP's multiple sites policy addresses programs offered in multiple delivery formats (e.g., in-person, online) as well as programs that are offered at more than one campus location.

True

False

**Correct answer: True**
