Outcome #2 – CACREP requires an addendum

Does the program want to continue in the review process?

YES

The program submits an addendum addressing concerns raised in the Initial Review Letter.

CACREP sends the addendum out to reviewers. There are two possible outcomes. An on-site visit is approved, or CACREP recommends the program withdraw from the review process.

On-site visit is approved

The program returns the site visit template and pays the on-site visit fee.

CACREP arranges the on-site visit.

The on-site visit occurs and the institution receives the Team Report. Does the program want to continue in the review process?

YES

The program submits an Institutional Response and waits for a decision from the Board of Directors. All materials must be in to the CACREP office 30 days before a Board meeting in order for a decision to be rendered.

NO

The program officially withdraws from the review process.

CACREP recommends Withdrawal

Does the program want to continue in the review process?

YES

The program overrides the recommendation and chooses to host an on-site visit

NO

The program officially withdraws from the review process.
